

SPARTAN SPX-FL48C LED Zone 1 Floodlight Crane Luminaire

rayTEC®

- ATEX and IEC Ex approved – Zone 1
UL/CSA approved, including C1D2 and ABS
- Zone 2 variant also available
- Rotary damper ensures light is constantly targeted where required
- Easy installation, maintenance and inspection
- Ultra long life LED
- High lumen output LED
- Wide operating temperature range -10° to +55°C
- Two anchor points for safety suspension cord
- Integral photocell (optional)
- 5 year warranty
- Now 'op is' approved (EN60079-28)

The SPARTAN Crane luminaire is designed specifically for use on Marine/Offshore boom cranes where high performance, high reliability, White-Light illumination is required to ensure the safety of crane operations. Using Raytec's field-proven, long-life LED technology, SPARTAN floodlights are ATEX and IEC Ex approved for all Zone 1 applications and rated for T4 environments. The SPARTAN Crane luminaire features a stainless steel rotary damper which ensures the unit always illuminates the area directly below the crane and prevents the luminaire swinging as the crane boom moves up and down. In an application where luminaires are subject to large amounts of vibration, existing traditional floodlights used in crane applications require constant maintenance to keep the luminaire in working order. In contrast, the LEDs of the SPARTAN Crane luminaire are naturally resistant to vibration, allowing for extremely low maintenance operation.

SPARTAN is designed to provide a high quality white light illumination to ensure safe operation of the crane for both operator and personnel working in the near vicinity, leading to improved productivity and a safer working environment. SPARTAN uses **COOLEXTRUDE™** thermal management technology, ensuring a much cooler LED operating temperature and up to 60% better heat dissipation compared to traditional lighting solutions, allowing the product to operate for > 10 years while still delivering a high lumen output of up to 10,000 lumens.

Product Dimensions

Features	Benefits
Ultra-Powerful	High lumen output - up to 10,000 lumens Latest high power LED technology
Ultra-Flexible	Operating temperature range of -10°C to + 55°C with a T4 rating for even the most challenging conditions.
Ultra-Reliable	Industry leading 5 year warranty Designed & manufactured in the UK to the highest standards including both ISO9001 & ISO14001. Advanced electronics and LED's protected by vibration resistant and water proof potting compound. Built with marine grade aluminium and marine grade 316L stainless steel bracketry for long life.
Ultra-Modular	Both the LED and PSU modules are easily accessible for maintenance and inspection
Ultra-Efficient	COOLEXTRUDE™ thermal management delivers class leading energy efficiency Significant running and maintenance savings compared to traditional lighting technologies SMART access wiring system for safe and efficient installation, set-up and ongoing inspection
Ultra-Support	Photometric files available (.ies & .ldt) Full Lighting Design Service Site specific Energy and Cost Saving Report available

5 YEAR WARRANTY

All Raytec luminaires are provided with an industry leading 5 year warranty and have an expected useful life in excess of 10 years
