Ingersoll Rand PFT INDIA

Ingersoll Rand is a global powerhouse renowned for its innovative and mission-critical technologies across air, fluid, energy, and medical sectors. With a focus on enhancing industrial productivity and efficiency, Ingersoll Rand has established a strong presence in India through its Process Flow Technologies (PFT) business vertical.

Ingersoll Rand PFT India boasts a diverse portfolio of blower and vacuum pump brands, including Everest, Elmo Rietschle, Robuschi, Nash, Toshniwal Vacuum, Hoffman & Lamson, Roots, and Garo—each known for the exceptional quality and performance of their products and engineering services.

From dry screw vacuum pumps and mechanical vacuum boosters to lobe blowers, liquid ring vacuum pumps, and centrifugal pumps, we offer the right solutions to meet your specific needs. These brands collectively provide a comprehensive range of vacuum and blower solutions to serve industries ranging from Oil & Gas, Chemical, General Industries, Solar, Li-Ion Battery, Carbon Capture, to Water Treatment and Effluent Treatment.

INNOVATIVE SOLUTIONS

Ingersoll Rand PFT India offers top-quality blowers and vacuum pump solutions from renowned brands like **Everest, Elmo, Rietschle, Robuschi, Nash, Toshniwal Vacuum, Hoffman & Lamson, Roots, and Garo**. Known for their exceptional performance and engineering, we provide tailored, high-performance solutions for all kinds of industries.

Trust us for reliable, innovative, and cost-effective solutions.

Our strategic brands are at the heart of **Ingersoll Rand** **PFT INDIA**

EVEREST

Everest is a pioneer in India's industrial low-pressure and vacuum solutions, offering a range of products, including dry screw vacuum pumps, mechanical boosters, claw and oil-lubricated pumps, and customized systems. Our blower products include twin and tri-lobe blowers, turbo blowers, multi-stage centrifugal blowers, and side channel blowers. We serve industries such as chemicals, pharmaceuticals, food processing, steel degassing, plastic recycling, water treatment, and more.

NASH

With a century of expertise, Nash is a trusted provider of liquid ring vacuum solutions for industries such as Oil & Gas, Petrochemical, Power, Mining, Food, Carbon Capture, and more. Our brands—Nash, Garo, and Hoffman & Lamson—offer a full range of vacuum pumps, compressors, blowers, and highly engineered systems.

ROBUSCHI

As a global leader in the production of oil-free compressors at low pressure, lobe blowers, liquid ring vacuum pumps, and centrifugal pumps, Robuschi is committed to innovation and state-of-the-art manufacturing processes.

Elmo Rietschle

The result of a strategic merger between Elmo and Rietschle, Elmo Rietschle offers a diverse range of technologies, including liquid ring pumps, side channel blowers and compressors, oil-lubricated and dry-running rotary vane pumps and compressors, rotary lobe pumps and compressors, claw pumps and compressors, screw vacuum pumps, and radial fans.

Toshniwal[®]

Toshniwal Vacuum has been a trusted name in Indian industrial vacuum solutions for decades. With a focus on quality products and services, it is dedicated to improving and evolving to better serve its customers.

TRANSPORT SOLUTIONS

For over a century, we've been the pioneers in efficiently transferring bulk materials from road tankers. Evolving with global demands, we've expanded into specialized transport, on-board power systems, and cutting-edge electric compressor packages for e-mobility vehicles. Our automotive products excel in bulk performance, installation criteria, and cost of ownership. With a total life cycle approach, our engineers bring over a century of reliable service to ensure you're always on the road to success!

TODO

For over four decades, TODO has been synonymous with quality, delivering innovative and field-proven products. When it comes to dry-break couplings for fluid and gas projects, customers know the name to trust - TODO. With a legacy of over 40 years, TODO is the go-to choice for those who demand quality and performance. Don't settle for less; choose TODO for unmatched excellence in every connection!

EMCO WHEATON®

Our products, meticulously crafted at our four strategically located plants worldwide, have been setting the industry standard for decades. Clients repeatedly choose our class-leading solutions, confident in the knowledge that they are investing in the finest products from one of the world's most respected brands. With manufacturing plants in Houston, Texas, USA; Kirchhain, Germany; and Margate, UK, and a global network of sales offices spanning over 100 countries, our commitment to excellence knows no bounds. Join a legacy of trust and choose a brand that spans the globe.

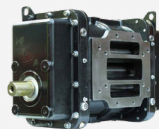

GHH RAND®

Renowned worldwide, GHH RAND® stands as a premier designer, manufacturer, and supplier of compressor solutions, delivering unmatched quality and performance. With a legacy spanning over 60 years in the bulk transport sector, our pioneering methodology propels us to constantly engineer innovative compression products. Benefit from our expertise and experience as we continue to set new standards, providing long-term value to our customers. Trust GHH RAND® for excellence that transcends time and boundaries.

hibon®

Truck Blowers! For more than a hundred years, Hibon has been a dominant force in the truck market, revolutionizing it with our positive displacement blowers. Specifically engineered for the toughest truck applications in both pressure and vacuum, our solutions have set the standard. Join the ranks of those who recognize and rely on the exceptional performance of our heavy-duty truck blowers. Trust the legacy, choose Hibon for unmatched excellence on the road.

ROBUSCHI®

At Robuschi, we recognize the critical role of a reliable roots vacuum pump in the trucking industry. Our state-of-the-art vacuum pumps are meticulously engineered to deliver exceptional performance, ensuring optimal functionality across various applications. Whether you're transporting liquids, chemicals, or industrial waste, our vacuum pumps are designed to not only meet but exceed your expectations.
